1. Welcome

This manual covers the Administration area of the ASUU-MOAUM Thrift & Savings portal - the tools cooperative staff use to manage members, approve loans, process savings and withdrawal requests, run remittance and income reports, and post announcements.

It applies to both staff roles: **Admin** and **Financial Secretary (FIN_SEC)**. FIN_SEC has every tool in this manual, with three exceptions reserved for Admin only:

- **Legacy data import** - the one-time historical-records tool, not covered in this manual.
- **Database backup / restore / reset** - server-level tools for taking or restoring a full database backup.
- **Changing a member's role** - promoting or demoting between Member, FIN_SEC and Admin.

Wherever a tool below is Admin-only, this manual says so. Everything else in this manual works identically for both roles.

As with the member manual, every screenshot here uses a fictitious demonstration cooperative (made-up staff and members, fictitious amounts) - none of it is real cooperative data.

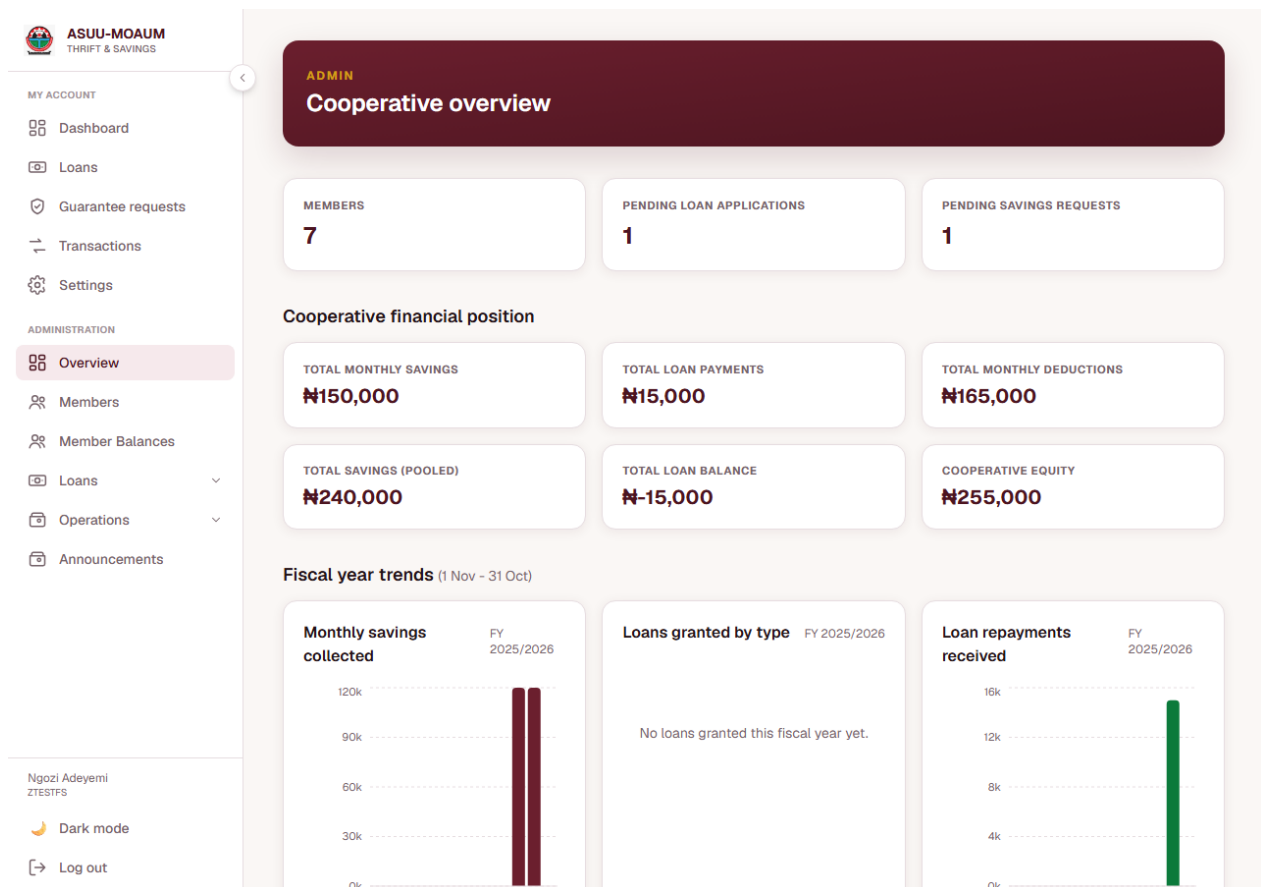

2. Signing In

Staff sign in the same way members do - registration number and password on the portal's sign-in screen. Once signed in, staff see two menu groups in the sidebar: **My account** (your own personal savings/loans, exactly like any member) and **Administration** (the tools in this manual).

Staff are members too. Admins and Financial Secretaries have their own savings and can apply for loans like anyone else - that's what the "My account" section is for. See the separate Member User Manual for that side of the portal.

3. Cooperative Overview

The Administration section opens on the Overview page - a snapshot of the whole cooperative: total members, pending loan applications and savings requests awaiting your decision, and the cooperative's overall financial position (pooled savings, total loan balance, equity), with fiscal-year trend charts underneath.

The Administration overview page.

4. Managing Members

The Members page lists everyone in the cooperative, searchable by registration number or name.

REGNO	NAME	STATUS	ROLE	MONTHLY SAVINGS	ACTIONS			
ADMIN001	System Administrator	ACTIVE	ADMIN	₦20,000	Excel	PDF	Withdrawal	Reset password
A00101	Tunde Bakare	ACTIVE	MEMBER	₦20,000	Excel	PDF	Withdrawal	Reset password
A00102	Funke Alabi	ACTIVE	MEMBER	₦20,000	Excel	PDF	Withdrawal	Reset password
A00103	Ibrahim Musa	ACTIVE	MEMBER	₦20,000	Excel	PDF	Withdrawal	Reset password
A00104	Blessing Okon	ACTIVE	MEMBER	₦20,000	Excel	PDF	Withdrawal	Reset password
A00105	Samuel Terhembra	ACTIVE	MEMBER	₦30,000	Excel	PDF	Withdrawal	Reset password
ZTESTFS	Ngozi Adeyemi	ACTIVE	FIN_SEC	₦20,000	Excel	PDF	Withdrawal	Reset password

The Members list.

- **+ Register member** - add a brand-new member. Their password defaults to their own registration number, and they're prompted to set a real password on first sign-in.
- **Excel / PDF** - export that member's own transaction history.
- **Withdrawal** - jump straight to the Membership Withdrawal tool for that member (Section 7.4).
- **Reset password** - resets their password back to their registration number, so they can sign in and set a new one - useful if a member is locked out.

5. Member Balances

A point-in-time report of every active member's savings balance, loan balance and net equity, computed from every transaction on record up to a date you choose - useful for a fiscal year-end snapshot (e.g. 31 October). Search narrows the table by regno or name; both Excel and PDF export are available.

A00101	Tunde Bakare	₦40,000	₦0	₦40,000
Total (7)		₦240,000	₦-15,000	₦255,000

Member balances as at a chosen date.

6. Loans

Everything to do with loans lives under the **Loans** group in the sidebar.

6.1 Loan Approval

Every pending application waits here, with both guarantors' acceptance status shown. You can only approve once both guarantors show ACCEPTED.

ASUU-MOAUM Thrift & Savings - Administrative Dashboard Manual

Page 6

The screenshot displays the 'Pending loan applications' section of the ASUU-MOAUM Thrift & Savings Administrative Dashboard. The left sidebar contains navigation menus for 'MY ACCOUNT' (Dashboard, Loans, Guarantee requests, Transactions, Settings) and 'ADMINISTRATION' (Overview, Members, Member Balances, Loans, Loan Approval, Monthly Remittance, Loan List, Loan Manager, Liquidation requests, Monthly Upload, Loan Application Fee Upload). The user is logged in as 'Ngozi Adeyemi ZTESTFS' with a 'Dark mode' toggle and a 'Log out' button.

The main content area is titled 'Pending loan applications' and includes buttons for 'Download pending applications (Excel)' and 'Download pending applications (PDF)'. Below these are buttons for '+ Apply on behalf of a member' and '+ Batch upload applications'. A specific loan application is shown for 'Tunde Bakare (A00101) - Main Loan', with details: '₦300,000 over 24 months - applied 2026-09-28', purpose 'Home renovation.', and guarantors 'Funke Alabi (A00102)' and 'Ibrahim Musa (A00103)', both marked 'ACCEPTED'. Action buttons 'Approve & disburse' and 'Reject' are available for this application.

A pending loan application ready for approval.

- **Approve & disburse** - approves the loan, computes interest and the repayment schedule, and posts the disbursement to the member's ledger immediately.
- **Reject** - declines the application with a note.
- **+ Apply on behalf of a member** - staff can submit an application for a member directly; both guarantors are marked ACCEPTED automatically rather than waiting for them to respond.
- **+ Batch upload applications** - submit several applications at once from a spreadsheet.
- Use **Download pending applications** (Excel/PDF) for an offline copy of the queue.

6.2 Monthly Remittance

Generates the payroll deduction schedule for a given pay point, year and month - the file used to tell the university what to deduct from each member's salary that month.

Loan Manager

Pick a member to see their running and pulsed loans - liquidate one (in full or in part), pulse a running loan to pause its monthly deduction, or resume a pulsed one.

Member

Blessing Okon (A00104)

Loan code	Loan type	Amount	Monthly repayment	Balance	Status	
DEMO-LOAN-2	Emergency Loan	₦180,000	₦15,000	₦0	RUNNING	Pulse History

A member's running loan in the Loan Manager.

- **Pulse** - pause a running loan's monthly deduction (e.g. the member is temporarily off payroll); **Resume** brings a pulsed loan back to running.
- **History** - the loan's full repayment history.
- Partial or full liquidation is also actioned from here.

6.5 Liquidation Requests

Members can request to liquidate (pay off) a loan early; approved requests here settle the loan's remaining balance, with an admin charge applied automatically.

Loan liquidation requests

Members can request to liquidate their own running loan, in full or in part. Review the preview below before approving - approving posts the liquidation immediately, exactly as a direct liquidation from Loan Manager would.

No pending liquidation requests.

The liquidation requests queue.

6.6 Monthly Upload

After payroll runs, upload the actual-deductions spreadsheet here - each row posts a savings or loan-repayment transaction to the matching member's ledger, with a summary of any rows that couldn't be matched to a member.

Loan application fee upload

Most application fees (sale of application forms) are collected offline rather than through a member's own online loan application. Upload a batch here to capture those in the Income report - every row posts as a Loan Application Fee (LAF), a debit against that member's savings. This never locks a period - it's an ad-hoc event like IOS or a correction, so the same period can be uploaded again whenever more offline payments come in.

Columns: **SN** , **REGNO** , **NAME** , and **AMOUNT** - no **KIND** column needed, every row is always a Loan Application Fee sale.

Download empty template (Excel)

Period (month-end)

Select...

Excel file (.xlsx)

Choose File No file chosen

Upload

To review or delete a past upload (including this one), see **Monthly Upload** - every batch, whatever its kind, shows up in that history list and can be reversed from there.

The loan application fee upload tool.

7. Operations

7.1 Savings Requests

A member's request to change their monthly savings amount lands here once it needs approval - specifically, any request above ₦70,000 (amounts at or below that take effect immediately, with no admin step).

A pending savings amount change request.

7.2 IOS Requests & IOS Calculation

IOS (Interest on Savings) is the cooperative's annual payout of interest earned on members' savings. **IOS Calculation** computes each member's share for a fiscal year; **IOS Requests** is where members' payout requests are approved once calculated.

Interest on Savings calculation

Automatically computes each active member's Interest on Savings (IOS) for a fiscal year - their savings balance at the close of that year, multiplied by the rate you set here - instead of calculating it externally and uploading it via Monthly Upload. Review the preview below before posting; posting credits every member at once (transType IOS1), exactly as a manual IOS1 upload would, and shows up in Monthly Upload's batch history, fully reversible from there.

Fiscal year

FY 2025/2026

Interest rate (%)

Preview

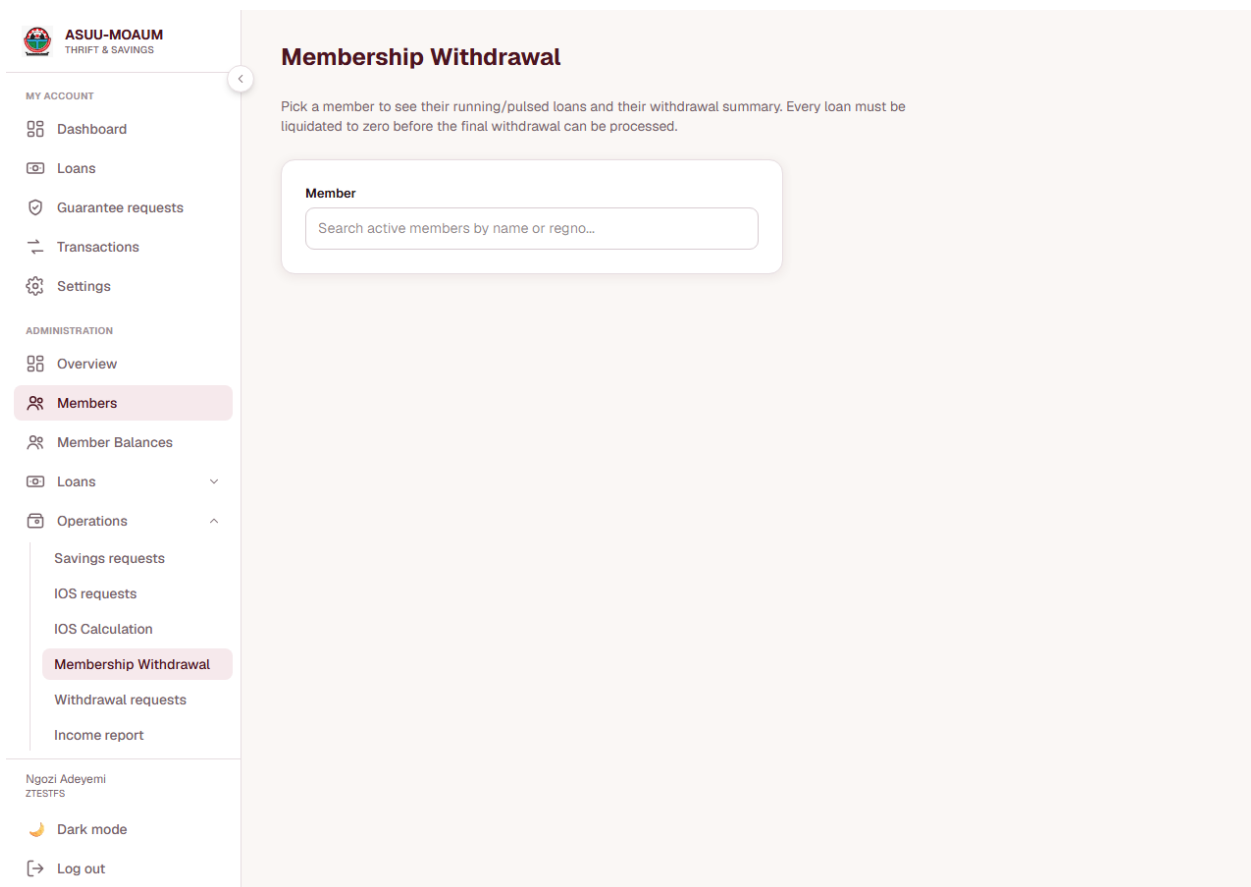

The IOS calculation tool.

ASUU-MOAUM Thrift & Savings - Administrative Dashboard Manual

Page 15

7.3 Membership Withdrawal

For a member leaving the cooperative entirely. Search for the member to see their running loans and withdrawal summary - every loan must be liquidated to zero before the final payout can be processed.

The Membership Withdrawal tool.

7.4 Withdrawal Requests

Members can request to withdraw from the cooperative entirely; their request (with a computed payout after the Commission on Turnover deduction) waits here until you open the Withdrawal Module to process it, or reject it.

Emergency Loan	₦0 View	₦18,000 View
Total interest	₦0	₦18,000
Admin charge on liquidations	₦0 View	₦0 View
Commission on Turnover (COT)	₦0 View	₦0 View
Sale of Application Forms	₦0 View	₦0 View
Total income	₦0	₦18,000

The income report, comparing two fiscal years.

8. Announcements

Post a message that scrolls across the top of every member's own dashboard (never shown on admin pages). Only one published announcement is needed at a time - post a new one, then Unpublish or Delete the old one. Published announcements can be edited in place.

The Announcements management page.

9. Admin-Only Tools

Three tools exist only for the Admin role and are not covered in this manual - Financial Secretaries will not see them in the sidebar at all:

- **Legacy data import** - the one-time import of historical records from the old system.
- **Database backup, restore and reset** - server-level tools for backing up or restoring the entire database.
- **Changing a member's role** - promoting or demoting between Member, FIN_SEC and Admin.

For any of these, contact an Admin directly.

10. Need Help?

For anything this manual doesn't cover, contact the ASUU-MOAUM Thrift & Savings ICT/admin office directly.
